

Cutting Edge Research and Technology Development in the field of Thermo-Fluid Dynamics, 26-30 May 2014 Özyeğin University, Istanbul

Content

In this seminar serie, renowned German and Turkish scientists working in different fields of Thermo-Fluid Dynamics meets with the researchers in academics and industry. This activity is aiming at fostering the future scientific collaboration between two nations in the German-Turkish year of research, education and innovation.

Lecturers

Prof. Dr. Dr. h.c. Franz Durst

Prof. Dr. Milovan Perić

Prof. Dr. İ. Bedii Özdemir

Prof. Dr. Eberhard Bodenschatz

Prof. Dr. Emin Özsoy

Prof. Dr. Can Delale

Prof. Dr. Pınar Mengüç

Prof. Dr. rer. nat. Bruno Eckhardt

Asst. Prof. Dr.-Ing. Özgür Ertunç

Assoc. Prof. Dr. Mehmet Şahin

Prof. Dr. Emil Stanev

Assoc. Prof. Ali Koşar

Asst. Prof. Dr. Arif Karabeyoğlu

Prof. Dr.-Ing. Dimosthenis Trimis

Assoc. Prof. Dr. Oğuz Uzol

FMP Technology GmbH

CD-Adapco and CoMet GmbH

İstanbul Technical University, Mechanical Engineering

Max Planck Institute - Göttingen,

Laboratory for Fluid Dynamics, Pattern Formation and Biocomplexity

METU Institute of Marine Sciences

MEF University, Mechanical Engineering

Özyeğin University, Mechanical Engineering and

Center of Energy, Environment and Economy

Philips University of Marburg, Chair of Complex Systems

Özyeğin University, Mechanical Engineering

İstanbul Technical University, Astronautical Engineering

Helmholtz-Zentrum Centre for Materials and Coastal Research

Sabancı University, Mechatronics Engineering

Koç University, Mechanical Engineering

Karlsruhe Institute of Technology, Engler-Bunte Institute,

Division of Combustion Technology

METU Aerospace and Aeronautical Engineering & Wind Energy Center

Registration

The seminar is **free of charge**. Nevertheless, the participants should register by sending an e-mail to turkcalman.kayit@ozyegin.edu.tr.

There will be **travel support** for limited amount of students and researchers working in the Turkish universities out of İstanbul. More details of the event can be found at

www.ozyegin.edu.tr/Seminar-Thermo-Fluid-Dynamics
